Removals

SAVE up to **15%** on your **Night Move** during our introductory period.

Our commitment to reducing carbon emissions is more than hot air! Hence the reason we have introduced 'Night Moves'.

Due to the practices we use to reduce our Carbon Footprint, we also reduce costs. This saving is then passed onto YOU, our client.

Students: We offer an automatic **10%** discount for students.

Packing

How many of us own Plasma TVs? Did you know the cost of a replacement screen is about 80% of the total purchase price? The smallest indentation can leave you with a useless, 50" box.

Sit back and relax whilst all of your furniture and belongings are professionally packed and wrapped for the move.

Storage

Are you worried the clutter in your property makes it look less desirable to potential purchasers?

Are you part of a chain and in need of somewhere to store furnishing whilst waiting to exchange?

Are you a student, who has decided to take up residence away from home, or is on a work placement abroad, but need somewhere to store your possessions rather than wasting money on renting?

Would you like to reclaim your garage or spare room?

You are not required to store for months on end. You can store your belongings for as little as one week. and we provide 24-hour CCTV security, monitored alarms and access.

Cleaning

By providing both removal and cleaning services we act as one-stop-shop for all your removal requirements.

The additional cleaning and repairs services have helped many of our clients secure the return of their rental deposits in full.

By adding the cleaning service to our move, you can save a considerable amount of money.
